# Have you tried our Video Consultation solution?

Provide your patients with easy access to care and advice without the need for them to visit their local GP practice in person.

Our simple to use Doctor to Patient 2-way Online Video Consultation not only saves your practice valuable time, money, and resources, but it also offers an additional way for your patients to connect with their GP safely and securely without the need to travel to their local practice.

Best of all, our video consultation solution is already included in your Engage Consult package - so there's no need to worry about additional costs for using this service!

**Offer your patients a simple and convenient way to access their GP**
